

React JS Ticket Booking Application (Internal Department Event)

This document contains the source code for a simple React JS-based Ticket Booking Web Application for internal department events like technical fests or seminars.

```
// App.js
import React, { useState } from 'react';
import './App.css';

function App() {
  const [tickets, setTickets] = useState([]);
  const [name, setName] = useState('');
  const [event, setEvent] = useState('');

  const bookTicket = () => {
    if(name && event){
      setTickets([...tickets, { name, event }]);
      setName('');
      setEvent('');
    }
  };

  return (
    <div className="App">
      <h1>Department Event Ticket Booking</h1>

      <input
        type="text"
        placeholder="Enter Name"
        value={name}
        onChange={(e) => setName(e.target.value)}
      />

      <input
        type="text"
        placeholder="Enter Event Name"
        value={event}
        onChange={(e) => setEvent(e.target.value)}
      />

      <button onClick={bookTicket}>Book Ticket</button>

      <h2>Booked Tickets</h2>
      <ul>
        {tickets.map((ticket, index) => (
          <li key={index}>
            {ticket.name} - {ticket.event}
          </li>
        ))}
      </ul>
    </div>
  );
}

export default App;

// App.css
.App {
  text-align: center;
  margin-top: 50px;
}

input {
  margin: 10px;
}
```

```
padding: 8px;  
}  
  
button {  
padding: 10px 20px;  
cursor: pointer;  
}
```
